**State of Library Services**

The outdoor space is now moving forward. The necessary budget adjustments will be completed by 4/15 and the bid has been awarded. We hope to start construction in May.

As some may have seen, the Institute of Museum and Library Services (IMLS) is currently undergoing a change in budget and how they operate. Our library receives no direct support from IMLS but does receive support via our State Library. Our State Library receives federal funds from IMLS to support many of their staffed positions, grants that they distribute to libraries, and essential services like public internet. For our library, we receive public internet support and discounts through the State and our digital library consortium is coordinated and partially funded by IMLS. We have not seen how exactly these services will be impacted yet. For our public internet, we will likely retain the coordination provided by our State Library, but our yearly service bill may rise by about \$4,000 if LSTA funds are not available. For our digital library consortium, we may lose the State Library coordination depending on potential staffing cuts. Additionally, we may lose extra funds from LSTA that help support our shared collection budget and reduce holds for popular items. The consortium is currently working on a plan to shift coordination from the State Library if that position is eliminated.

Those are the two main impacts of these IMLS changes. Smaller changes will likely be the elimination of small dollar grants, including \$6,000 a year we utilize to support staff professional development. Lastly, IMLS manages data for public libraries across the country. If that data is no longer maintained, we will not be able to compare our performance to other public libraries. While there will be some impacts for our library, most of the burden will fall on the State Library and on small, rural libraries that rely on grant funding to operate.

The City has begun utilizing Workday for time, recruiting, and performance management. This new system consolidates these processes from several platforms into one. We have only begun to use the time management portion of this service. The primary difference is that hourly employees must now clock in/out for work.

Our new self-checks and print management systems have been going well. We do have one issue with our print management in which our weekly patron balances are not replenishing for all patrons. This is impacting a small and seemingly random group of patrons and was remedied at the end of March.

New lobby tables and benches have been ordered and may be here by the next board meeting. The tables will replace the glass tables that are cracked. The benches will replace the worn-out benches by the Conference Rooms and public restrooms.

Program highlights from the month include:

- We held our second annual Drawathon the first weekend of the month. This event covers the Collaboratory with paper for people to draw on during our open hours. Throughout the weekend, there were also prompts and activities to inspire creativity. Over 180 people participated in this event.
- Our Holi event took place on 3/8 and was a great event. The event occupied our Collaboratory, Gallery, and outdoor space. There were colorful crafts, song and dance, and the color toss. An estimated 300 people attended this event, and it was a great way to bring a part of India to Richland.
- Kadlec had a busy month of public programming with 5 events this month. In total, this brought in over 100 patrons.
- We had our Mayor here at the library to be a special guest at our storytime on 3/21. Mayor Richardson read a couple of stories including one written by a family friend of hers. This continues to be an excellent format to connect our City leaders to the community by getting to know them as neighbors.

### **Friends of the Library Update**

The Friends are ready to begin selling RPL merchandise in their store online. Before this is done, we must amend their agreement to include use of the RPL logo. Once signed off on, we can begin sharing this with the public.

### **Library Foundation**

The Foundation is due to make their donation for the outdoor space. They will be at the 4/15 Council meeting to receive recognition for this donation.

### **Staffing Updates**

There are no staffing updates for this month.

### **Library Statistics**

As with past years, March has become one of our top gate count months due to the Richland School District art exhibit. This exhibit features art from many of our neighboring schools and brings in big crowds during the three days they host their art reception. Each of those day's gate counts exceed 1,000. The overall trend in 2025 continues to be higher than 2024 with over 1,000 more patrons this year compared to last.

Our physical circulation continues to echo the trends of 2024 with circulation rising from February to March. The numbers would be even with our 2024 numbers, but we see our reciprocal circulation

raising our numbers rather than keeping circulation flat. March 2024, we circulated 37,034 physical items. This March we circulated 39,292 physical items. This 2,258 item increase closely compares to the 2,470 March circulations from reciprocal cards.

Our digital statistics continue to mirror 2024 with very similar numbers. The one exception continues to be Hoopla, which has been trending about 1,000 fewer circulations each month compared to last year. In 2024, these numbers were 4,566. This year, Hoopla recorded 3,234. Libby is up 600 circulations over last year and Kanopy down by about 100 circulations. Both differences are quite marginal.

Usage statistics are not yet available from Morningstar for March, so we will include them in next month's board report.

### Value Line

The 792 Value Line page views in February were down 8.3% compared to the 864 page views in January 2025, and they were also down 37.3% compared to the 1,264 page views that occurred in February 2024. Value Line remains a worthwhile research platform for our patrons. Its pairing with Morningstar gives our patrons a helpful depth of financial information for any investment questions that they have.

Usage statistics are not yet available from Value Line for March, so we will include them in next month's board report.

## **OTHER STATISTICS**

### **Gate Counts**

Our total gate count for March was 21,601. Our busiest day was Wednesday, March 19, with 1,067 patrons logged. We held an active story time that day, and we also hosted a Kadlec Community Health presentation and an extremely well-attended reception for the Richland School District K-5 Art Exhibition.

### **Interlibrary Loans**

Our interlibrary loan specialist retired in January, and we hired a new specialist who started work at the end of March. We temporarily paused our outgoing interlibrary loan services in March during the transition. For that reason, we did not receive any requests from other libraries in March, and we did not mail out any items to other libraries.

We did send 34 interlibrary loan requests to other libraries in March for items requested by our patrons, and we received 31 items from other libraries in response to our requests.

### **New Library Card Accounts**

We created 492 new library card accounts in March. They included 267 resident cards, 139 reciprocal cards, 40 reciprocal digital cards, 28 nonresident cards, 16 limited access cards, and 2 iCards.

### **Public Internet Sessions**

Patrons enjoyed 2,370 public internet sessions during the month of March, for a total of 1,866 hours and 22 minutes. The average session was 47 minutes long.
