Reviewing Authority and Applicable Codes

Richland Municipal Code (RMC) Chapter 19.20.030 designates the Hearing Examiner as the hearing body responsible for conducting the review of plat alteration applications.

Approval of a final plat alteration shall follow the listed guidance below:

24.80.010 Application.

- A. An application may be submitted for any proposed alteration to a final subdivision or final short subdivision. The application shall contain the signatures of the majority of the parties having an ownership interest in lots, tracts, parcels, sites or divisions in the subject subdivision/final short subdivision or portion to be altered. If the final subdivision/final short subdivision is subject to restrictive covenants which were

filed at the time of approval of the final subdivision/final short subdivision, and the application for alteration would result in the violation of a covenant, the application shall contain an agreement signed by all parties subject to the covenants providing that the parties agree to terminate or alter the relevant covenants to accomplish the purpose of the alteration of the final subdivision/final short subdivision, or portion thereof.

- B. An alteration of a final subdivision is classified as a Type III permit and shall be processed pursuant to RMC Title 19 and in a manner consistent with RCW 58.17.215.
- C. Any final short subdivision alteration proposed under this section shall be subject to the requirements of Chapter 24.40 RMC.

RCW 58.17.215 Alteration of subdivision - Procedure

When any person is interested in the alteration of any subdivision or the altering of any portion thereof, except as provided in RCW 58.17.040(6), that person shall submit an application to request the alteration to the legislative authority of the city, town, or county where the subdivision is located. The application shall contain the signatures of the majority of those persons having an ownership interest of lots, tracts, parcels, sites, or divisions in the subject subdivision or portion to be altered. If the subdivision is subject to restrictive covenants which were filed at the time of the approval of the subdivision, and the application for alteration would result in the violation of a covenant, the application shall contain an agreement signed by all parties subject to the covenants providing that the parties agree to terminate or alter the relevant covenants to accomplish the purpose of the alteration of the subdivision or portion thereof.

Upon receipt of an application for alteration, the legislative body shall provide notice of the application to all owners of property within the subdivision, and as provided for in RCW 58.17.080 and 58.17.090. The notice shall either establish a date for a public hearing or provide that a hearing may be requested by a person receiving notice within fourteen days of receipt of the notice.

The legislative body shall determine the public use and interest in the proposed alteration and may deny or approve the application for alteration. If any land within the alteration is part of an assessment district, any outstanding assessments shall be equitably divided and levied against the remaining lots, parcels, or tracts, or be levied equitably on the lots resulting from the alteration. If any land within the alteration contains a dedication to the general use of persons residing within the subdivision, such land may be altered and divided equitably between the adjacent properties.

After approval of the alteration, the legislative body shall order the applicant to produce a revised drawing of the approved alteration of the final plat or short plat, which after signature of the legislative authority, shall be filed with the county auditor to become the lawful plat of the property.

This section shall not be construed as applying to the alteration or replatting of any plat of state-granted tide or shore lands.

24.80.020 Alteration of final subdivision – Procedure.

- A. Upon receipt of a completed application for the alteration of a final subdivision, the administrator shall provide notice of the application to all owners of property within the subdivision, publication in the official newspaper of the city, and to those owners of property within 300 feet of that portion or phase of the subdivision proposed for alteration. The notice shall include a statement that a public hearing will be conducted by the hearing examiner.
- B. Consistent with RCW 58.17.217 and 58.17.330, any hearing for alteration of a subdivision shall be administered by the hearing examiner, and such decision shall be given the effect of a final decision.
- C. During the public hearing, the hearing examiner shall determine the public use and interest in the proposed alteration and may deny or approve the application for alteration. If any land within the alteration is part of an assessment district, any outstanding assessments shall be equitably divided and levied against the remaining lots, parcels, or tracts, or be levied equitably on the lots resulting from the alteration. If any land within the alteration contains a dedication to the general use of parties residing within the subdivision, such land may be altered and divided equitably between the adjacent properties.
- D. Following approval of an alteration, the applicant shall produce a revised drawing of the approved alteration of the final plat, which shall be signed by the administrator and public works director and filed with the Benton County auditor's office to become the lawful plat of the property.

19.60.095 Required findings.

No development application for a Type III permit shall be approved by the City of Richland unless the decision to approve the permit application is supported by the following findings and conclusions:

- A. The development application is consistent with the adopted comprehensive plan and meets the requirements and intent of the Richland Municipal Code.
- B. Impacts of the development have been appropriately identified and mitigated under Chapter 22.09 RMC.
- C. The development application is beneficial to the public health, safety and welfare and is in the public interest.
- D. The development does not lower the service of transportation facilities below the level of service D, as identified in the comprehensive plan; provided, that if a development application is projected to decrease the level of service lower than level of service D, the development may still be approved if improvements or strategies to raise the level of service above the minimum level of service are made concurrent with development. For the purposes of this section, "concurrent with development" means that required

improvements or strategies are in place at the time of occupancy of the project, or a financial commitment is in place to complete the required improvements within six years of approval of the development.

- E. Any conditions attached to a project approval are as a direct result of the impacts of the development proposal and are reasonably needed to mitigate the impacts of the development proposal.

SEPA

The proposal is not subject to State environmental review under the State Environmental Policy Act.

Critical Areas

The requirements of RMC Chapter 22.10 are not applicable, as the proposal plat alteration is not immediately within any designated critical area.

Shoreline Master Program

Notice of Hearing Posted:	July 20, 2025
Notice of Hearing Published:	July 19, 2025
Public Hearing:	August 11, 2025

Public hearing notices were distributed through posting of the property, mailing of notice to property owners within the Lorayne J Ranch No. 1 subdivision and 300 feet of the site, posted on the City’s website, and published in the Tri-City Herald newspaper. Copies of the notices and affidavits are included in *Exhibit 3*.

Analysis

Applicants are requesting to alter the Lorayne J Ranch No. 1 final plat by removing the open area note found on Lot 13, Block 1. Final plat alterations are governed by RMC Chapter 24.80.

Findings, Conclusions, and Recommendation**Findings of Fact**

1. The property owner, Scot & Tyler LLC, has applied for a plat alteration to the Lorayne J Ranch No. 1 final plat subdivision.
2. Richland's Comprehensive Plan designates the subject site as developed open space (DOS).
3. The current zoning for the proposed plat alteration is designated R-1-10 (Single-Family Residential) which allows for zero to five dwellings per acre.
4. The Lorayne J Ranch No. 1 final plat consists of twenty-seven (27) lots. There are twenty-six (26) residential lots and one (1) open-space lot according to the recorded final plat.
5. The Lorayne J Ranch No. 1 final plat was recorded on June 1, 1976.
6. Chapter 24.80.020 of the RMC sets forth the standards for review of plat alterations that require the Hearing Examiner to consider the public use and interest proposed to be served by the subdivision and any dedications associated therewith. The hearing examiner shall determine the public use and interest in the proposed alteration and may deny or approve the application for alteration. If any land within the alteration is part of an assessment district, any outstanding assessments shall be equitably on the lots resulting from the alteration. If any land within the alteration contains a dedication to the general use of parties residing within the subdivision, such land may be altered and divided equitably between the adjacent properties.
7. The proposed plat alteration would remove the "Open Space" designation from Block 1, Lot 13 of the Lorayne J Ranch No. 1 final plat.
8. The Richland School District received the agency comment email. Staff did not receive any comments regarding this plat alteration during the comment period.
9. City staff and other agencies have reviewed the project and provided comments, as shown in Exhibit 4.
10. The application is not subject to SEPA environmental review, as described in RMC Chapter 22.09.250 and WAC 197-11-800(6)(f).
11. The proposed plat alteration will not lower the level of service standards below level of service D, as required under RMC 19.60.095(D).
12. The subject site does not lie within any existing Critical Area. Therefore, the requirements of RMC Chapter 22.10 do not apply.
13. The subject site lies outside of the jurisdiction of the Shoreline Master Program. This project will have no effect on shorelines of statewide significance. Shoreline permitting requirements are not applicable with this proposal.

Conclusions of Law

1. Application meets the City's requirements as established in RMC Chapter 24.80.

Recommendation

Staff has completed its review of the request for the plat alteration of the Lorayne J subdivision final plat (PLN-T3-2025-00002) and recommends **approval** of the request to remove the open area language from the Lorayne J Ranch No. 1 subdivision Lot 13, Block 1.

This is one of those weird ones where we have power all around the parcel but I think Richland services it. Just sending this to incase you need to review it for any reason.

Thank you,
