Subject

Parks, Recreation and Open Space Plan – Planning Progress Update

Department

Parks & Public Facilities

Recommended Motion

None. Discussion only.

Summary

The purpose of this workshop is to update the Parks and Recreation Commission on the progress of the PROS Plan and to lead a discussion on several key components of the planning process. Staff and the consultant team will provide a brief schedule update, share feedback received from the City Council on October 28, and review preliminary park access mapping that identifies current ten-minute walk gaps across the community.

The Commission will also review the draft Strategic Framework, including updated values, goals, and systemwide objectives that will guide plan development. The workshop will conclude with a discussion about potential recommendations and capital improvement projects. Commissioners will be asked to identify high-priority needs and provide feedback on project prioritization criteria. This direction will help shape the next phase of the PROS Plan.
